EXPERIENCE

TEAM LEADER & SOFTWARE ENGINEER, GRAPEFRUIT EDUCATION PROJECT

TROY, NY

SINCE SEPTEMBER 2013

- Leads a software engineering team in developing an open-source education platform.
- Created the project brand and designed the logo used in production beginning Fall 2013.
- Has presented work to the Institute's Provost and other high-ranking university officials.
- Two RPI professors will begin using the platform in their courses beginning Fall 2014.

WEB & MOBILE SOFTWARE ENGINEER INTERN, EMARKETER INC.

11 TIMES SQUARE, NEW YORK, NY

MAY 2014 - AUGUST 2014

- Worked full-time in an agile, scrum environment alongside the web product development team.
- Was involved in all aspects of product development, including planning, design, QA, and code review.
- Updated and added features to the company's iPhone and iPad applications, now live in the iOS App Store.

MOBILE ENGINEER CONSULTANT, MOBIMICRO, INC

NEW YORK CITY, NY

JULY 2013

- Developed an iOS SDK for the mobiMicro platform, complete with unit testing and documentation, to serve as a native wrapper for the company's XML API.

WEB & MOBILE ENGINEER INTERN, KMOTE, INC.

ALLENDALE, N.J.

2011-2013

- Primary web developer on a product & travel recommendations site. Used HTML, CSS, jQuery, and an MVC PHP framework I created to interface with an XML API. Designed the logo for the company.
- Animated and narrated a short introductory video for Kmote.com.
- Used Python to construct a backend email processing engine that handles commands for the web product.
- Developed and designed an iPhone application for a peer-to-peer polling system.

WEB DEVELOPER, WOMEN IN PROGRESS

ACCRA, GHANA

JUNE-JULY 2012

- Worked with the WIP staff to re-design and optimize an online commerce platform for West African women.
- Revamped the aging "Ghana Expeditions" brand and designed the new site at <http://ghanaexpeditions.com/>.
